Job Description – Support Executive

Company: Eazy ERP Technologies Pvt. Ltd.
Location: Gurgaon

Role Overview

We are seeking a **Technical Support Executive** who will serve as the primary point of contact for customers, ensuring timely problem resolution, high satisfaction, and seamless support across various channels. The role requires excellent communication skills, product awareness, and a customer-centric approach.

Key Responsibilities

1. Responding to Customer Inquiries

- Provide accurate and timely information on products, services, and processes.
- Assist customers in troubleshooting and resolving product-related questions or issues.

2. Managing Customer Complaints

- Understand customer concerns with empathy.
- De-escalate conflicts and resolve queries according to company guidelines.
- Offer fair and effective solutions.

3. Product / Service Guidance

- Educate customers on product usage and best practices.
- Recommend additional features, customizations, or services based on customer needs.

4. Handling Customer Feedback

- Collect, log, and share feedback to help improve product and service quality.
- Ensure feedback loops are closed by communicating outcomes to clients when required.

5. Maintaining Knowledge Resources

- Update FAQs, help guides, and manuals for customer self-service.
- Stay up to date on product changes, new modules, and updates.

6. Providing Multichannel Support

- Assist customers via **email, chat, phone, WhatsApp, etc**, ensuring prompt and accurate responses.

7. Ensuring Customer Satisfaction

- Track customer satisfaction levels using surveys and feedback tools.
- Follow up after issue resolution to confirm satisfaction and offer further help.

8. Technical Support (If Applicable)

- Troubleshoot product-related technical concerns.
- Escalate complex issues to the Support Manager or Technical Team when required.

9. Recording & Reporting

- Document customer interactions, issues, and resolutions in the CRM/support system.
- Identify recurring issues or trends and report them for product/service improvement.

Who Should Apply

- Candidates with strong communication and problem-solving skills.
- Individuals with prior experience in customer support, service desk, or helpdesk roles (preferred but not mandatory).
- Tech-savvy professionals comfortable learning enterprise software.
- Someone who is patient, empathetic, and committed to delivering excellent customer experiences.

Why Join Us

- Learn and grow in a fast-paced, innovation-driven work environment.
- Exposure to world-class ERP and integrated digital platforms.
- Friendly, supportive team culture with continuous learning.
- Strong career advancement opportunities within customer success, product, or technical roles.
